

Dr. Tanifum received BS and MS degrees in Chemistry in Cameroon. He moved to the US in 2001, where he earned a Ph.D. in Organic Chemistry from Utah State University in 2006 under the supervision of Dr. Brad Davidson. Upon graduation, he conducted postdoctoral research in Dr. Alvan Hengge's lab and then moved to Houston, Texas for further postdoctoral research in medicinal chemistry and nanomedicine. He joined the Department of Pediatric Radiology at Texas Children's Hospital, where he currently serves as Manager of Basic Science Research in 2011, and was appointed Assistant Professor of Radiology at Baylor College of Medicine in 2013. His current research efforts are focused on the development of nanoparticle-based imaging technologies and targeted theranostics.
