

CHEMISTRY AND BIOCHEMISTRY MAJORS

ADVISING

Advising is an essential tool for academic and timely graduation. Each student should regularly meet with an advisor. Three different types of advising are available in the department. Below is a table that shows what kinds of issues are handled by each of the three different types of advisors.

You should meet with a faculty advisor early in your degree program to discuss your professional goals and learn about career options for holders of chemistry and biochemistry degrees.

<u>Chemistry Faculty Advisors</u>	<u>Academic Advisors</u>	<u>Biochemistry Faculty Advisors</u>
<p>Dr. Robert Brown Bob.brown@usu.edu Students with last names A-M</p> <p>Dr. Steve Scheiner Steve.scheiner@usu.edu Students with last names N-Z</p>	<p>Located in Maeser Lab Rm. 140</p> <p>Geri Child Department Advisor Geri.child@usu.edu 435-797-0544</p> <p>Kara Swenson Peer Advisor chemistry@usu.edu</p>	<p>Dr. Doug Harris Doug.harris@usu.edu Students with last names A-F</p> <p>Dr. Joanie Hevel Joanie.hevel@usu.edu Students with last names G-M</p> <p>Dr. Lance Seefeldt Lance.seefeldt@usu.edu Students with last names N-Z</p>

What kind of advisor do I need?

Peer Advisor	Department Advisor	Faculty Advisor
Planning class schedules	Declaring a chemistry or biochemistry major	Career advising
Advising questions	Applying for graduation	Course electives advising
Creating a plan of study	Academic holds	Any questions beyond general advising
Learning how to use Degree Works	Advising for transfer students	
Scheduling appointments with faculty advisors (can be done over email)	Questions regarding transfer credit and articulation	
	Making sure students are on track for graduation (should make an apt. by spring of junior year)	

To meet with Geri Child or Kara Swenson you can email them directly. Please email Kara Swenson to coordinate appointments with Faculty Advisors as well.
