

# Biochemistry Seminar

## Chemistry 7800, Fall 2021

**Course Content:** Chemistry 7800 is a graduate seminar series designed give students the opportunity to describe progress in their research projects and to get experience and feedback in giving scientific presentations. Activities to improve communication skills are also provided.

**Course Assessment:** Chem 7800 is a pass/fail course and students must register for it each Fall and Spring Semester during the first two years of the program. Annual participation in the Departmental section CHEM 7800-001 of the seminar program is mandatory regardless of registration status. No more than 2 missed biochemistry seminars per semester will be allowed (unless approved by the faculty).

Students with ADA-documented physical, sensory, emotional or medical impairments may be eligible for reasonable accommodations. Veterans may also be eligible for services. All accommodations are coordinated through the Disability Resource Center (DRC) in Room 101 of the University Inn, (435)797-2444. Please contact the DRC as early in the semester as possible. Alternate format materials (Braille, large print, digital, or audio) are available with advance notice.
