Our faculty have a wide range of research interests and receive funding from public and private sources such as NIH, NSF, DOE, NASA, the American Heart Association, USDA, and the Frasch Foundation. Their work is regularly published in prominent research journals, including Science, Nature, PNAS, EMBO, JACS, Biochemistry, JBC, and Inorganic Chemistry.

We value diversity and inclusion. Students from underrepresented groups are encouraged to apply.

2022 UTAH STATE UNIVERSITY
